- 5 Janelle saw an ad for Great White toothpaste that included the graph shown below.

Which one of the following characteristics makes the graph misleading?

- A The bars are in the wrong order. They should be ordered from lowest percentage to highest percentage.
- B The data is represented on a bar graph instead of a circle graph.
- C The bars should be horizontal instead of vertical.
- D The scale increments make the percentage of dentists who recommend Great White appear to be much greater than the other brands.
